BIG RIG FRIENDLY?	Yes, with many pull-through sites. Maneuvering was easy if taken slowly and with care.
ACCESS	Just minutes from Interstate 25. Take exit 185 and head north for a very short distance (500' - 1,000'). Then turn left onto SR 20/26 and go approximately one mile. The park's entrance is on the right.
SETTING	Even with the highways very nearby, the setting was peaceful and somewhat cozy.
COMMENTS	<p>This park offered a respite to what had been a long day of driving. It was nice and clean, and while we heard a train whistle twice during a Sunday night, all was quiet.</p> <p>The location of this park makes it very convenient for any short drives into downtown Casper.</p>
